

A 400 Alligatorshear

The types A 400 have a mechanical holddown plate. The shearing machine can be controlled by a foot pedal for single cuts or continuous cutting. It has a safety cap. The machine can be delivered with wheels or with the possibility to be lifted by forklift truck.

Technical data A 400

Length of cutting blade: 400 mm

cuts/ min: 20-32

Cutting force: 800 kN

Capacity: 0,45 kN/ mm² : Ø 50 mm

Cutting capacity: U structural material: 100 mm

Cutting capacity: flat bar steel: 150 x 8 mm

L-angle: 70 x 70 x 7 mm

T-structural material: 70 x 70 x 8 mm

Maximum width of mouth : 220 mm

drive: 4,0 kw

Weight: 1030 kg

Oil tank: 125 ltr

Control: foot pedal

Safety equipment : safety cap

L x W x H: 170 x 80 x 165 cm
